

Eliason

SCP-4 Aluminum Traffic Door

Attractive traffic doors that offer a classic look, along with durability.

The SCP-4 is designed for use in kitchens, restaurants, banquet halls, cafeterias, hospitals, retail environments and hotels.

The door features an anodized aluminum finish for a classic metallic look. It operates on the original Easy Swing Hinge® system, the smoothest operating and most reliable hinge system available.

The SCP-4 is fully customizable with various window shapes and sizes and can be supplied with easy spring bumpers, bumper strips and other options.

Custom Built To Meet Your Specifications

- ✓ Anodized aluminum panels
- ✓ Many window sizes and shapes, including flush style and ADA
- ✓ Stainless base plates

Eliason Easy Swing Hinge® System

SCP-4 Aluminum Traffic Door

Specifications, Construction and Color Options

Features:

- ✓ The SCP-4 has an overall thickness of 1" and features a 3/4" moisture-resistant composite wood core clad on both sides with .032" anodized aluminum with satin finish.
- ✓ 12" high stainless-steel impact plates are standard.
- ✓ Standard 9" x 14" vision panels are 3/16" thick acrylic set in black rubber molding. Additional window sizes and design options are also available.
- ✓ Eliason Easy Swing Hinge System.

Benefits:

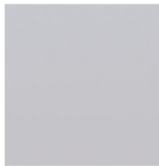

- ✓ This medium weight door panel is both attractive and durable and offers a classic look.
- ✓ These attractive stainless base plates protect the door against damage from impact and abrasion.
- ✓ Various window size configurations are available to meet your specific needs, including ADA compliant windows.
- ✓ The Easy Swing Hinge® system was pioneered by Eliason more than 50 years ago and offers smooth, quiet and reliable operation.

✓ Single panel opening sizes up to 44" x 96" and double panel openings up to 96" x 96".

✓ Applications include: retail stores, restaurants, kitchens, cafeterias, banquet halls, hotels, country clubs, hospitals and more.

Color Options:

Actual color samples should always be requested if color accuracy or matching is key to your decision.
