70% of surface is open

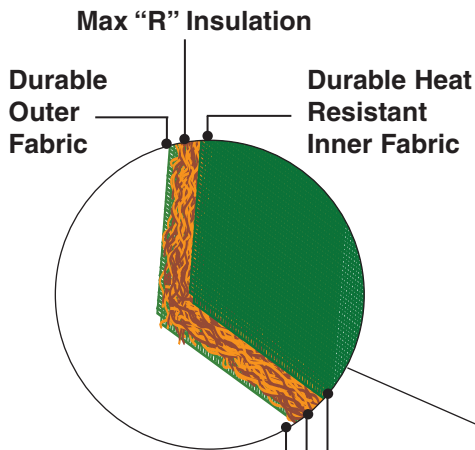

Standard Models

Custom Sizes Available

| Item | Supro-BM-7 |
|----------------------------|-------------------|
| Color | W-GN-BL-Y-GY-R-BK |
| Weight/ sq. yd. | 7 oz. |
| Flame Resistance | NFPA-701 |
| Adhesion in lbs./sq. in. | N/A |
| Break Strength in lbs./in. | 230 x 200 |
| Tear Strength in lbs. | 100 x 100 |
| Hydrostatic Burst in psi | N/A |
| Coldcrack | - 40° F |

Standard

- Standard size:
23"W x 28"D x 62"H (End Load)
Custom Sizes Available
- Max "R" insulation sandwiched between two durable fabric layers.
- Handy zippered access flap (Hook and loop optional).
- Clear pocket for product labeling
- Loop for wall-hanging storage

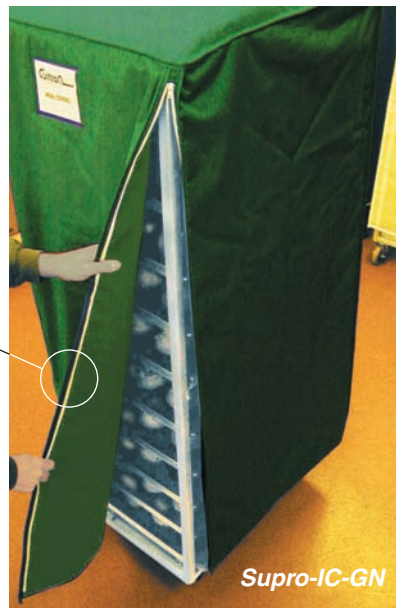

INSULATION MATERIAL

- 65% Olefin, 35% Polyester
- Fibers absorb less than 1% moisture
- Flame Rating: Class I as per Federal Flammable Fabrics Act 16 CFR Part 1610
- "R" Value: 2.20 up to 2.50
- Thickness: 0.55" (6.2 oz. per sq. yd.)

OUTSIDE MATERIAL

- 24 oz. per sq. yd. (0.61 mm)
- Vinyl Coated Polyester Fabric
- - 20°F Coldcrack
- Break Strength: 90 x 80 lbs. (ASTM 5034)
- Flame Rating: California Fire Marshall - CA117 Section E, MVSS-302

INSIDE MATERIAL

- Mallard Duck (100% Cotton)
- Weight: 11.5 oz. per sq. yd.
- Break Strength: 170 x 100 lbs. (Method 5100)
- Flame Rating: California Fire Marshall - CA117 Section E, MVSS-302

Benefits

- Transforms an open rack into an inexpensive "closed cabinet" (insulated pad included for bottom shelf).
- Turns a non-insulated cabinet into an insulated cabinet (and prevents skin burns from hot exterior metal surfaces).

Customer Satisfaction Guarantee

Within 30 days, if you are not convinced of the quality, value and benefits of Curtron **Protecto-Covers®**, you may return the item for a full refund.

CUSTOM COVERS

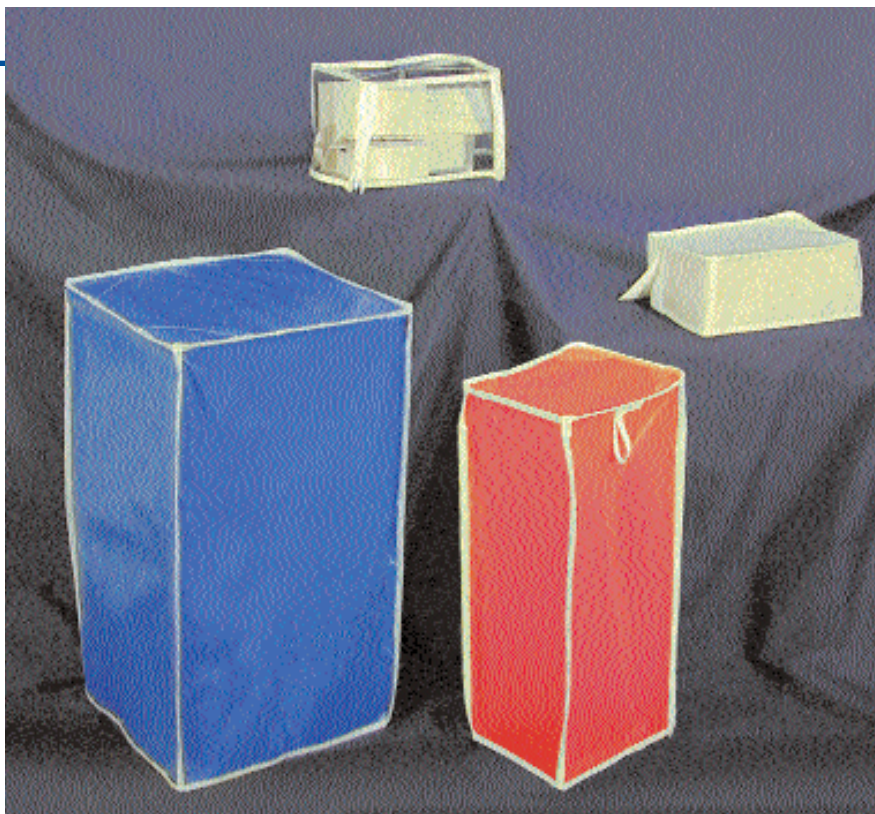

Keep your equipment clean and uncontaminated.

Curtron can manufacture a vinyl cover for nearly any type of equipment. If you need a cover for a mixer, slicer, food processor, food rack, dish dolly or any kind of cookware, Curtron can build an inexpensive covering that will last year after year. Just give us the dimensions and specifications . . . and *we'll cover it!*

We have a wide range of materials including reinforced nylon fabric, breathable mesh and clear flexible PVC. Choose from a large variety of colors or our "see-thru" transparent film.

Customer Satisfaction Guarantee

*Within 30 days, if you are not convinced of the quality, value and benefits of Curtron **Protecto-Covers**®, you may return the item for a full refund.*

Choose from this list of features:

- 3 different materials:
 - 18 oz. reinforced nylon fabric in red, green, blue, yellow and translucent white
 - 10, 12, 14, 20 & 40 mil clear flexible vinyl
 - Durable mesh fabric in black, gray, red, green, blue and yellow
- Industrial grade zippers or hook and loop
- Label pockets
- Clear vinyl windows
- Storage loops

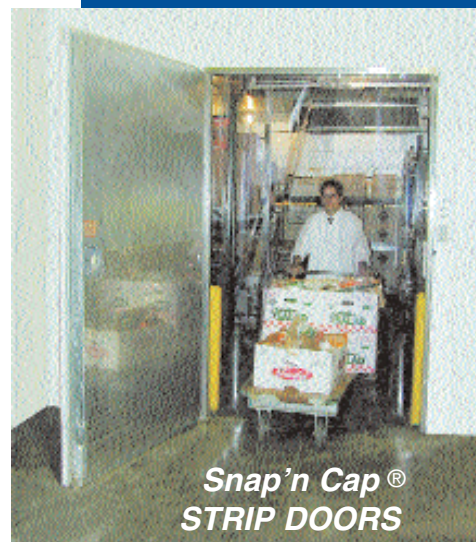

Just give us the **Width, Depth & Height** or **Diameter** (if applicable), the material, any other specifications and Curtron will fabricate a durable custom cover for you.

OTHER QUALITY CURTRON PRODUCTS

Air Doors inhibit contaminated air, dust, smoke, insects and odors from entering or leaving through openings while permitting unrestricted entry and exit. Heaters can be integrated into intake grill for customer or personnel comfort. Every air door is shipped with a 30 day money-back guarantee.

Strip Doors are the least expensive, yet most efficient method of keeping a temperature controlled environment clean and contaminant free. The revolutionary Snap'n Cap design utilizes hardware that covers the mounting pins to shield them from collecting dirt and dust. Snap'n Cap complies with FDA and USDA regulations.

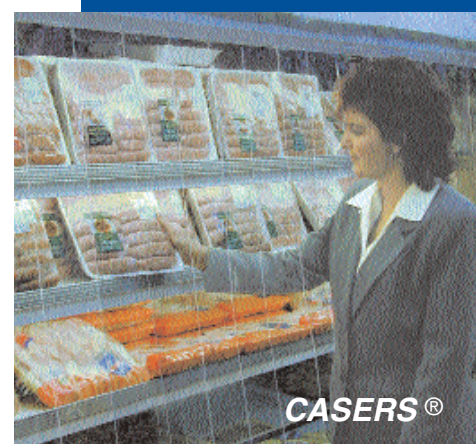

*Engineered Products for
Energy Conservation
and Food Safety*

Accordion Strip Doors can be used conventionally or, within seconds, can be pulled back to one side or bi-part to create an open doorway. The folded panels reduce to just 15% of the opening.

Commonly used in school lunch rooms, this unique reach-thru, see-thru milk cooler curtain helps maintain beverage temperatures during serving periods when cooler doors are open. We stock every size for every cooler made. Call for more information.

Thermal curtains are made of super double polished clear PVC strips that allow easy access to cooled product. Hook and loop fastening makes it easy to install and aesthetically pleasing.

OTHER QUALITY CURTRON PRODUCTS

Conventional dividers are the most inexpensive solution to contain environmental problems such as dust, smoke, humidity, adverse temperatures and noise.

Our exclusive Pipe Staff design adds stability and security with "lock-up" cane bolts and "lock-down" wall brackets.

Overhead door brackets allow exterior doors to stay open without losing interior temperatures. Also featured here is our "insect control" yellow ribbed strip material.

Weld screens are primarily used for safety during welding or grinding. These stand-alone screens offer excellent protection against harmful levels of UV light, as well as sparks and flying debris.

The line of dock bumpers includes laminated, extra-length, extra-thick, steel faced, extruded and molded. We also carry parking blocks, speed bumps and wheel chocks. A complete line of dock lights and dock fans is available.

Curtron Products stocks the largest variety of flexible PVC in the nation. We have over 500 sizes, grades and colors of sheets, strips, film and panel material. Whatever your requirements are, we will be able to accommodate your needs. With our slitting, sheeting and interleaving equipment, we can customize any order and ship the very next day. Materials can be purchased in bulk or cut to size. Our service and quality is absolutely the "best in the business".

*Realize the Savings... Realize the Quality... Realize the Service
Realize the Difference!*
