

FOUR-FOLD GT™

Opening to Your Standards.

Door Engineering's Four-Fold GT™, trackless folding gate system is the ideal system for perimeter security access. The Four-Fold GT™ gate systems require very little maintenance and provide high cycle durability, even in the harshest conditions.

SPEED

- Doors up to 16' wide open in under 7 seconds
- Faster access than conventional sliding cantilevered gate

FEATURES

- Convenient operator access
- Manual release for easy manual operation (available with high security locking access cover)
- UL325 Listed
- High cycle durability

**High Speed,
High Cycle**
