

# Love is in the air.

**Keep critters out.**

Bug doors, air curtains, and industrial separation solutions by Chase Doors

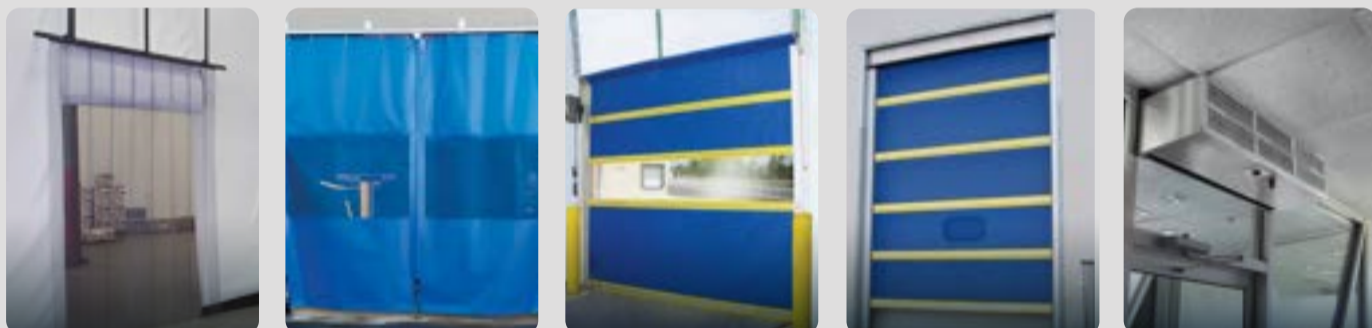

Industrial facilities with large openings face constant challenges—pest intrusion, contamination risk, and rising energy costs. Traditional doors are often left open, inviting problems in and letting conditioned air escape.

Chase Doors | TMI's roll-up and strip door solutions create a smart barrier between outdoor and indoor environments—without slowing workflow.

### Why facilities love Chase Doors | TMI:

- Blocks birds, bugs, and debris
- Reduces air loss
- Keeps forklifts and personnel moving
- Supports clean, compliant operations

## Choosing the Right Solution

Application Need	Best Option
Non-stop forklift traffic	Strip Doors
Wide openings	Sliding Bug Screens
Climate control	Vinyl-Pro® Roll-Up
Pest protection + airflow	Bug or Bird Roll-Up Doors
Barrier-free openings	Air Curtains

Chase Doors | TMI combines industrial-grade products with application expertise to solve real-world facility challenges. No matter the opening or environment, we help you keep birds, bugs, and outdoor air out —while keeping productivity moving forward.
