ColdGuard® Gen II Swing Door

FLORIDA BUILDING CODE (FBC) APPROVED

Designed for cold storage environments, the Gen II Swing Door delivers temperature control, efficiency and durability. It's now Florida Building Code (FBC) product approved, providing a code-compliant solution for food processing and cold storage facilities.

TESTED TO FLORIDA STANDARDS

Approval followed successful completion of rigourous testing requirements covering impact, static air pressure and cyclical wind loading.

TAS 201 - 94	Impact Test Procedures
TAS 202 - 94	Uniform Static Air Pressure Testing
TAS 203 - 94	Cyclical Wind Pressure Loading Testing
