## SUPERIOR DESIGN

- A** Book shelf is provided in single tier lockers (48" or higher).
- B** Steel coat hooks are zinc plated.
- C** Double channel lock bar with spring steel latches is protected within full height channel-edge door construction.
- D** Sturdy, heavy gauge steel frame hooks provide secure latching.
- E** Rubber bumpers are provided at each hook to reduce door noise.
- F** Aluminum number plates have easy-to-read 1/2" high black numerals.
- G** Punching for built-in locks is provided in all doors.
- H** Tops, bottoms, and shelves are formed with flanges on all 4 sides.
- I** Backs and uprights are designed with double-lapped rear vertical corners for strength.
- J** Overlapping door frame members are double-welded in each corner for a rigid assembly.
- K** Full height continuous door strikes on both left and right side frames provide strength and security.
- L** Full loop, 5 knuckle hinges are double-riveted to door and welded to side frame.
- M** Cross frames between tiered doors provide an exceptionally strong and rigid frame assembly.

## QUALITY

# The Republic Locker

Republic's superb design and consistent quality work in tandem to create the industry's best locker on the market. The result is a sturdy product, providing ease of installation and long-term functionality.

## Corridor Lockers

### Qwik-Ship Lockers *ready now*

**Republic's Qwik-Ship Lockers** are in stock for immediate shipment. They feature heavy 16 or 18 gauge steel doors mounted in welded frame assemblies for strength and durability. Reliable recessed handle and proven latching system ensure maximum security, while louvers provide ventilation. Lockers are conveniently available in pre-packaged, 1-wide and 3-wide groupings. Lockers include 6" legs for an overall finished height of 66" or 78". All stock sizes are available in #23 Classic Tan. Select sizes are also available in #20 Dove Gray.

### Standard Lockers *the industry benchmark*

**Republic's Standard Locker** offers economical storage, of personal effects in schools, parks and recreation areas, offices, and industrial locker rooms. Continuous vertical door strikes, heavy gauge frame hooks, and full-flanged, channel edged doors lend quality and security to the locker. Recognized by its recessed handle and distinctive door louvers, the Standard Locker serves as the industry benchmark for durability, reliability, and value. Many sizes of Standard Lockers are available for immediate shipment from our Qwik-Ship Inventory.

### Quiet Lockers *the best value*

**Republic's Quiet Locker**, the most popular choice for schools, meets the basic needs of the school environment: noise-free operation and recessed handles for flat door surfaces. It features continuous vertical door strikes and full-flanged channel edged doors for added strength and security. Double lapped rear vertical corners stiffen locker bodies. Full loop, nested hinges are welded to frames and double-riveted to doors to eliminate hinge failure. The combination of solid construction and competitive price makes the Quiet Locker the best value on the market today.

### Heavy Duty Corridor *an invincible choice*

**Republic's Heavy Duty Corridor Locker** is the best choice for tougher environments. With an extra heavy 14 gauge door, secure lock nut fasteners, and quiet latching, this locker provides extra strength and security. Nested hinges are welded to frames and double-riveted to doors to eliminate hinge failure. When you add the standard features of welded cross frames, continuous vertical door strikes, and double lapped rear vertical corners on locker bodies, you've got an invincible locker.

### Single Point II C *economy and strength*

**Republic's Single Point II Corridor Locker** gives you the benefits of single point latching at an economical price. A heavy 14 gauge door is reinforced for added strength and rigidity. When padlocks are used, the Single Point II is virtually maintenance free. Full loop, nested hinges are welded to frames and double-riveted to doors to eliminate hinge failure. Single Point II Box lockers offer small storage areas with a flush front door design. For low maintenance and high security at an affordable price, Single Point II Corridor Lockers are the best choice.

## Republic Storage Products

### Heavy Duty Ventilated *added strength*

#### Republic's Heavy Duty Ventilated Lockers

are designed to meet the harsh requirements of an athletic room environment. Built to last, these lockers feature knocked down construction, rugged 14 gauge doors, a heavy gauge body, multiple latching options, and our premium paint finish throughout. Diamond perforations in doors and sides provide free air flow as a key feature of the HDV locker. Riveted construction is recommended for assembly.

### Single Point II A *meets tough standards*

#### Republic's Single Point II Athletic Locker

brings the benefits of latching with no moving parts to athletic environments. Heavy 14 gauge doors with reinforcing stand up to the tough standards of an athletic team room. Box locker doors with optional reinforcing are also available. Continuous vertical door strikes, heavy gauge bodies, nested hinges, and our premium paint finish throughout add to the long life of the locker. For low maintenance and high security for the athletic locker room, Single Point II Athletic Lockers are the best choice.

### MVP *a team requirement*

#### Republic's MVP Athletic Locker

is a requirement for any athletic team. With an open-front design, the over-sized MVP Locker provides a large, closet-type space for clothing and uniforms and an optional foot locker for equipment storage. An upper shelf is ideal for small items, while the optional lockable compartment adds secure storage for valuables. Heavy gauge steel body parts and our premium paint finish guarantee durability in the demanding environment of a team room.

## Special Application Lockers

### ADA Compliant Lockers

ADA Compliant Lockers meet the requirements of the Americans with Disabilities Act for accessibility and usability. With an adjustment to the shelf location, Republic lockers with recessed handles meet the operation and reach needs of the user. Lockers should be placed in an area to allow full door swing and wheelchair turning ability.

ADA Compliant Benches (24" x 48") are also available.

### Emergency Response Lockers

Emergency Response Lockers are offered in a variety of configurations to appeal to diverse emergency personnel. Open-front lockers provide swift access to emergency items. Add double doors to securely store your mission critical items. An upper locked compartment or a bottom drawer can be added to secure personal items and equipment. The modular design allows your choice of features to accommodate your specific storage needs. A full range of accessories complements this locker's unique standard options.

### ABC Cubbies for Kids

ABC Cubbies for Kids meet the casework needs of daycare centers, pre-primary and elementary schools with the colorful, durable traits of steel lockers. Manufactured from heavy gauge steel, with no doors or locks for simplicity. Cubbies are designed for safety with 180 degree bends, round corners, and smooth edges. For a colorful, long lasting, and fast installing alternative to casework, choose ABC Cubbies for Kids.

### Ski Lockers

Ski Lockers are ideal for seasonal rentals at resorts and in ski area hotels and condominiums. The locker is 84" in height and with the optional sloping top, can hold skis up to 225 cm in length. Optional equipment includes stainless steel bottoms; slide stops to prevent skis from sliding out of lockers; hooks for hanging poles; and half shelves for hats, gloves, or goggles.

## Options: ventilation, exposed ends, finish trim, and locks

### Ventilation

### Exposed Ends

**Standard Uprights** with multiple holes for various style lockers are finished in #23 Classic Tan. 24 gauge is standard; 16 gauge is available.

**Option: Special End Uprights** have no unnecessary holes and are supplied in the same color as the door and frame. 24 gauge is standard; 16 gauge is available.

**Option: End Finishing Panels** have perimeter holes only and are finished in the same color as the door and frame. 24 gauge is standard; 16 gauge is available.

**Option: Boxed End Panels** cover the ends of locker rows and feature concealed fasteners for the most finished appearance. Painted in the same color as the door and frame, they are formed from 16 gauge steel with a 1" face.

### Locks

#### Built-in Combination, Padlock, Flat Key and Grooved Key Locks

All Republic lockers have provisions for built-in key locks, built-in combination locks, and padlocks. Built-in locks are supplied with a spring bolt or dead bolt, depending on the locker type. Key locks may be master-keyed by special order.

**Digilock ADA compliant locks** provide one touch access by contacting a button key to the lock face. Audio/visual indicators are provided for vision or hearing impaired users. To conform to ADA Accessibility Guidelines, lockers specified for ADA use must employ ADA compliant locks.

**Digilock electronic locks**, with sturdy metal construction, provide keyless, management-free locker operation. APS locks are used for rented or permanently assigned lockers; ATS locks are for temporary use. High security dead bolt locking and an audit trail are available with both lock systems.

**Safe-O-Mat coin lock systems** are easily installed on many Republic lockers. Deposit locks return a deposited coin to the user while collect locks keep coins in a cash box. Lock bolts are reversible for dead bolt or spring bolt operation.

### Finish Trim
