INDUSTRY ASSOCIATION

ProVia is a proud member of the Window & Door Manufacturers Association, which promotes the standards of excellence in the residential window and door industry, and advances these standards among industry businesses with resources designed to provide greater value for their customers.

ACCREDITATION AND TESTING

ProVia's products are voluntarily third party tested and rated in several energy performance categories through the National Fenestration Rating Council and meet or exceed standards governed by the American Architectural Manufacturers Association.

ENERGY STAR®

ProVia manufactures energy efficient products and exercises environmental stewardship by recycling, reducing pollution emissions and much more. In fact, our company has received repeated awards from the Environmental Protection Agency such as Partner of the Year - Sustained Excellence for outstanding efforts in energy savings.

WHY CHOOSE VINYL?

YOUR VERSATILE WINDOW SOLUTION

Aspect™ windows are constructed of SunShield® vinyl, made with a compound proven to perform better than alternative building materials. Vinyl ensures long-lasting color retention and low maintenance, plus the added confidence of a warranty against rotting, cracking, pitting, corroding and peeling. The vinyl is resistant to rot, insect and microbial damage, never requires painting and is easy to clean.

Low Maintenance

Vinyl windows are the low-maintenance choice for residential use.

Superior Weatherability

SunShield vinyl is uniquely formulated to withstand the harsh effects of weather, UV light and southern exposure.

Color Retention

Pharmaceutical-grade compounding and blending systems provide consistency, so you can rely on superior color and weatherability.

Designed to Perform

Industry partnerships and ongoing research into new technologies ensure the vinyl compound exceeds industry standards, outperforms the competition and works together to offer best-in-class technology.

Uncompromising Quality and Performance Testing

SunShield vinyl meets or exceeds the standards for strength and color retention established by the American Architectural Manufacturer's Association (AAMA).

STANDARD FEATURES

WHAT TO EXPECT WITH YOUR ASPECT WINDOW

Aspect windows can be completely customized to fit your exact style. Everything from the window size, color, hardware finishes, glass packages and trim options can be chosen by you.

Design the windows for each room in your house differently, or if you prefer a simple, seamless look, your windows can all be the same. The design options available to you are virtually endless. The features below are standard on all Aspect window styles.

3¼" Frame Depth

SunShield® Vinyl

¾" ComforTech™ DLA for Dual Glaze

1" ComforTech TLA or
TLK for Triple Glaze (Upgrade)

Optimized Wall Placement for Exceptional
Thermal Performance

INNERGY® Thermal Reinforcement
(Double Hung, Slider & Casement)

Accessory Grooves for Interior and Exterior Trim

Welded Frame and Sash Construction

Barrier-Fin and Bulb Seal Weatherstripping

Roll Formed Aluminum Screen Frame with
BetterVue® Fiberglass Mesh

LIFETIME
— LIMITED WARRANTY —

UNDERSTANDING YOUR WINDOW FEATURES

REINFORCEMENT

INNERGY® Thermal Reinforcements

Innergy is the innovative, energy-efficient alternative to aluminum, with added insulating properties making it 700 times better.

As the next-generation of thermal reinforcement for the industry, Innergy is able to deliver a quantum leap above aluminum in how windows perform:

Better Thermal Performance

Up to 700 times better than aluminum in material comparisons.

Better Thermal Break

Impervious to cold or heat.

Better Protection Against Condensation

Helps prevent staining that can occur with metal reinforcements.

Better Impact Testing

Resistance to impact versus other reinforcement products.

Better Flexibility

Will not permanently set when impacted.

Innergy and Aluminum in a 32 degree ice bath

Infrared analysis shows substantial conductivity in aluminum (shown on the right), and virtually none with Innergy (shown on the left)*

** Photos taken after one hour ice bath*

INSULATION

Neopor® (Optional)

Neopor is a graphite polystyrene rigid foam insulation that gives maximum efficiency and sustainability in building products. It is comprised of many small pockets of air within a polymer matrix containing graphite. The graphite reflects radiant heat energy like a mirror, increasing the material's resistance to the flow of heat, or R-value.

ProVia® uses Neopor insulation in certain vinyl extrusion cavities for even greater performance. Therefore, you can rest assured both the window frame and sash, along with the Neopor insulation are effectively regulating the temperature inside your home.

WEATHERSTRIPPING

Weatherstripping is a very important part of preventing air from coming into your home. ProVia's windows have weatherstripping on the frame and sash, ensuring you get a good seal at the important locations where air could pass through.

Bulb Seal

Bulb seals are seamless closed-cell compression seals that prevent water from penetrating the foam cell structure. Its extruded skin provides a unique UV resistant barrier with design features that enhance the weatherstrip's sealing performance.

Barrier-Fin

Seal woven and extruded pile weatherstripping with fin provides a very effective barrier against air, water, dust and noise, sealing against even and uneven surfaces with resistance to abrasion.

TEST SPECIFICATIONS

Aspect Double Hung 44" x 75"

Please reference the Window & Patio Door Technical Specifications Brochure for testing data on other window types.

YOUR SCREEN OPTIONS

STANDARD

Roll-Formed Screen with BetterVue® Fiberglass Mesh

BetterVue screen mesh is very durable and flame retardant, providing an enhanced view, increased insect protection and improved airflow.

This screen mesh features Phifer's® Water Shed Technology™, which preserves optical clarity by shedding water and resisting dirt and grime. The Water Shed Technology features a hydrophobic coating that will not wash off, which allows the screen to shed water and debris from a rainstorm or garden hose. This means your screen virtually eliminates window panning, a process by which the water fills the open squares in the screen.

OTHER OPTIONS

SeeVue® Stainless Steel Screen Mesh

Much stronger than the standard insect screen, this stainless steel screen is excellent for window applications. It is black coated for improved visibility and allows superior airflow.

Aluminum and Heavy Duty Fiberglass Screen Mesh also available.

Images above are up-close shots of the different types of screen mesh. When viewed from further away, the mesh is not as noticeable.

UPGRADE TO A FLEXSCREEN

Simple Design

PVC coated spring steel frame with no attachment hardware.

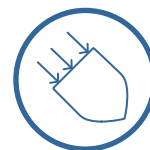

Effortless Installation

Simply hold the screen in your hands, bend the sides in, and fit FlexScreen into your screen pocket.

Damage Resistant

No more bent aluminum frames, scratched paint and broken hardware.

Beautifully Invisible

FlexScreen easily hides in the window screen pocket, drastically improving sight lines.

Available with BetterVue or Heavy Duty Fiberglass Mesh. *Lifetime Limited Warranty.*

CHOOSE YOUR WINDOW TYPE

DOUBLE HUNG

Double hung windows are ideal in every room of the house since they are easy to open and clean. Both sash tilt inward, while the screen stays in place. Put two or more double hung windows in a row to create an aesthetically appealing look.

Features

- Roller-Tilt® Balance System
- Exterior Glazing
- Cove Sash Profile
- Triple Weatherstripping
- Two Surface Mounted Sculptured Sweep Locks and Tilt Latches
- Dual Vent Locks
- INNERGY® Thermal Sash Interlock Reinforcements

SLIDER

Slider windows are another classic found in many homes. These windows work well above the kitchen sink or in any room where ventilation is important. Slider windows work great by themselves or paired with picture windows.

Features

- Brass Rollers
- Exterior Glazing
- Cove Sash Profile
- Dual Weatherstripping
- Two Surface Mounted Sculptured Sweep Locks
- INNERGY® Thermal Sash Interlock Reinforcements
- Vent Lock
- Anchor Stops (standard on 3-Lite Sliders)

PICTURE

Picture windows are perfect for any room with a view. They help capture the beauty that surrounds your home, while complementing other windows. Pair several picture windows together to bring in the beauty of the outdoors.

Features

- Fully Welded Frame
- Direct Set Glass
- Interior Glazing
- Sloped Sill

CASEMENT & AWNING

Casement and awning windows add style and flair to your home, allowing the perfect amount of ventilation desired. Group casement and awning styles together to create a beautiful wall of operational windows.

Features

- Exterior Glazing
- Casement Corner Drive System on Units 56¼" Tall and Taller (and 24" and wider)
- Multi-Point Locking Hardware
- Stainless Steel Hardware Package (Optional)
- Washability Hinge (Casement)
- Quick-Release Dual Arm Operator (Awning)
- INNERGY® Thermal Frame Reinforcements
- Optional Simulated Double Hung Meeting Rail (Casement)
- Fold-Away Handle

HOPPER

The hopper window is perfect for a basement, bathroom or laundry room, giving you adequate ventilation and natural light. These windows help add curb appeal to your home, providing light in a space that may otherwise be very dark.

Features

- Interior and Exterior Accessory Grooves
- Durable Top Mounting Lock and Hinge
- Insulated Panel Option Available to Mull to a Hopper Window
- Dryer Vent Not Included. Must be Installed Separately
- Hopper Window and Insulated Panel Available in White Only

Insulated Panel

Insulated Panel with Dryer Vent

ARCHITECTURAL SHAPES

Architectural shapes will complement your home's unique style, while allowing more natural light to brighten up your space. Shaped windows look great above other styles of windows or they can easily accent a patio door.

Features

- Fully Welded Frame
- Direct Set Glass
- Interior Glazed
- Wide Range of Shapes Available
- Optional Operating Octagon Shaped Window
- Single Hung Circle Top Window

GARDEN

The garden window looks great in a kitchen, bathroom or den, providing a perfect place for decorative accents or foliage and herbs. This unique window style not only allows more light in, but also helps open up your room.

Features

Top Sloped Tempered Insulated Glass

Completely Assembled with Unfinished 1¼" Oak Veneer Head, Jamb & Seat Board

White and Beige Laminate Head, Jamb and Seat Board Available as an Upgrade

Snap-In Corner Slope Closure Profile
Seals Tight

Twin Sealing, Fully Screened Operating Casements with Exterior Glazing

Easy Access Dual-Point Locking Operator

Fold-Away Handle

Fiberglass FlexScreen®

BAY & BOW

Bay and bow windows look amazing in a living room or master suite, giving you the versatility to choose a combination of picture, double hung or casement windows. The seat on a Bay or Bow window is a great place to sit and read or just enjoy the view.

Features

Bay: 3-Lite Unit with 2 Operable Windows with Screens

Bow: 3, 4, 5 or 6-Lite Units with 2 Operable Windows with Screens

Roof Kits Available in wood, painted aluminum and copper.

Bay Window - Hip Style Roof

Bow Window - Hip Style Roof

Upgrade to Optional Lock-Out Crank Handle

The lock-out feature prevents the handle from closing prematurely while operating the window. The handle can be easily put in the closed position by engaging the lever on the back (as pictured below).

White, beige or sandstone interior windows come standard with matching hardware. Upgrade to one of the beautiful decorative finishes on any window, enhancing the overall beauty of your room.

ENERGY SAVINGS, SIMPLIFIED

WHICH GLASS PACKAGE IS RIGHT FOR YOU?

FEATURING COMFORTECH™ WARM EDGE GLAZING SYSTEM

Most of your new window is glass. That's why we use the ComforTech Warm Edge Glazing System featuring Super Spacer® on all Aspect™ windows. This gives you reduced heat loss, warmer glass temperature and reduced interior condensation. All ComforTech products have passed stringent testing and are IG Certified to ensure seals are durable and will not leak.

Super Spacer®
Reverse dual seal technology

The No-Metal Advantage

Thermal efficiency through no presence of conductive metals.

Mylar 10-Layer Vapor Barrier

Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Lasting Appearance

Stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

Enhanced Noise Reduction

Excellent sound dampening properties reduce outside noise, even in industrial environments.

WHAT'S THE DIFFERENCE?

Krypton Gas

Inert to glass coatings, heat and spacers, krypton gas has the lowest conductivity of any gas used and raises the inner glazing temperature. This gas performs well in small chambers, making it the best choice for triple-glazed glass packages.

Argon Gas

Chemically inert to UV radiation, argon gas insulates better than air. It is sunlight stable, non-corrosive and non-toxic, making it the best choice for double-glazed glass packages.

ADD EXTRA PRIVACY AND TINT TO YOUR WINDOW

Privacy Options

Choose from five different types of glass if you need light to filter in, yet want to maintain privacy. These glass styles look great in rooms where privacy is important. Regardless of where it is used, privacy glass reduces the likelihood of needing extra window coverings.

CHINCHILLA

TAFFETA

WATERFALL

GLUECHIP

OBSCURE PEBBLE

Actual privacy levels will vary depending on your distance from the glass and also the amount of light in the room in comparison to the light outside your home. For extra privacy, choose two panes of privacy glass, rather than just one.

Tint Options

Tinted glass can help reduce UV transmittance, solar heat gain and glare. Tinted glass options can give a room a whole new look, providing its own unique set of benefits. Be sure to choose the right one for your home.

Clear Glass

Bronze

High visible light transmittance
Warm glow to interior décors
Complements brick and stone
Ultraviolet light protection

Green

Subdues interior brightness
High visible light transmittance

Gray

Excellent glare control
Exceptional protection against interior fabric and color fading
Ultraviolet light protection

Blue

Low shading coefficient
High visible light transmittance
Solar performance (reduces solar heat gain)

STYLE YOUR WINDOW WITH GRIDS

The style of grids you choose can make a big impact on your home's appearance. Grids look great on the front side of a house or in accent windows throughout the home. You can choose from internal or external grids and several grid patterns including Cottage, Colonial and Prairie styles.

External Grids

Simulated Divided Lites (SDL)
Grids are applied to the glass on both the interior and exterior of the window.

Internal Grids

If you want grids, but prefer not to clean around them, opt for internal grids so you get the same look and feel, without the hassle.

Contoured

Flat

Pencil
Available in Satin
Nickel, Brass and
Bronze

V-Groove
Available in 3/8" or 1/4"

Triple Glazed Glass

Internal grids with triple glazed glass are placed between two glass panes with the added efficiency of a third pane.

Double Glazed Glass

Internal grids with double glazed glass are placed between two panes of glass.

Cottage

Colonial

Prairie

Line art drawings show a small sample of the grid patterns available.

ADD INTERNAL BLINDS

If cleaning dusty blinds makes you cringe, be sure to add internal blinds to your windows. These blinds are made with sturdy aluminum and are custom-fit to the exact dimensions of each window.

Internal blinds work great in all bedrooms and bathrooms in the house. Blinds can be lifted up to allow maximum light in or they can be tilted to keep some light out and to maintain privacy.

Complement the interior of your home with white blinds.

WHITE

Blinds can be added to Double Hung, Casement, Awning, Picture and Slider windows.

Blind slats are ½" wide.

*Internal Blinds come with a **10-year Limited Warranty**.*

Allow for additional lead time on your window order.

Blinds and grids not available together.

interior of the home

FINISH YOUR WINDOW WITH MASTERFIT™ TRIM

Add the finishing touch to the interior of your windows with the MasterFit trim system, complete with assembled frame extensions that interlock with mortise and tenon casing. The MasterFit trim system guarantees a precise, custom-fit and long-lasting factory applied finish.

See the *Special Order Casing Guide* for more casing profile options.
