

# INVESTING IN HOMES AND HEALTH

As we launch Housing First Erie to elevate the quantity and quality of safe, affordable housing in Erie, Hamot Health Foundation is proud to offer a variety of dedication opportunities to supporters of our first initiative — Schoolhouse Apartments at Washington Square. Donors can dedicate spaces in this impactful facility to honor family, memorialize loved ones, or show their commitment to creating a home for those who need it most.

| DEDICATION OPPORTUNITY           | DESCRIPTION                                                                                                                                                      | AVAILABLE | VALUE       |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-------------|
| Project Partner                  | Join the effort to create homes that support the health of Erie’s most vulnerable residents                                                                      | 40        | \$1,000     |
| Project Champion                 |                                                                                                                                                                  | 40        | \$2,000     |
| Project Leader                   |                                                                                                                                                                  | 40        | \$5,000     |
| LEADERSHIP SUPPORT OPPORTUNITIES |                                                                                                                                                                  |           |             |
| Dedicate an Apartment            | The cornerstone of this work — safe, permanent, and supportive homes for the chronically unhoused of Erie.                                                       | 22        | \$20,000    |
| Supportive Service Suites        | A shared space where UPMC Western Behavioral Health at Safe Harbor and other partners can provide residents with the wrap-around services they need to flourish. | 1         | \$50,000    |
| Common Area                      | A place where residents can convene and receive services such as job training, health care, and more.                                                            | 1         | \$100,000   |
| Dedicate a Floor                 | Includes eight permanent supportive apartments.                                                                                                                  | 3         | \$250,000   |
| Dedicate the Building            | A landmark opportunity to uplift our community’s most vulnerable residents, offering a new, healthy, and hopeful life.                                           | 1         | \$1,000,000 |

Donors have the option to pay pledges over a period of two years. Signage recognizing supporters will be placed in common spaces throughout the building and will be designed with verbiage supplied by the donor.
